Christmas

Enhance your style with Unique Style Items

Don't miss out on any dressing style with fashionable products for dogs and cats with Unique Style Items from CLAWSET BKK that help enhance the style and uniqueness of your dog or cat. They come in special designs that are unlike any other.

3 important reasons! Why dogs and cats should wear animal clothes

Many dog and cat parents or owners who are looking for dog clothing stores near me may still have doubts about the advantages of letting our four-legged friends wear clothes. Why are dog and cat clothes necessary? CLAWSET BKK will help everyone to solve these doubts together.

There are 3 main reasons why dogs and cats should wear pet clothes :

To give cuteness to our children

The first thing is to let your dog or cat wear various fashionable clothes to make them look beautiful because dog or cat clothes and dog or cat fashion will help increase their cuteness and look good in various styles, which will help create an impression on the owner like us and make people around us see the cuteness of our dog or cat.

Another popular way to dress up dogs and cats is to have them wear matching clothes with their owners or dress in the same style. This helps create a unique look and shows love, making our dogs and cats truly like members of our family.

For warmth

In addition to wearing clothes for dogs and cats for beauty, pet clothes also help to increase warmth for dogs and cats, especially for those with small bodies or short fur, which will help prevent colds, illnesses, and moist lungs. It is suitable for raising pets in rooms with air conditioning or during cold weather.

For cleanliness and hygiene

Of course, dogs and cats are like family members. Taking care of their cleanliness and hygiene is something that owners like us cannot overlook. Dog and cat clothes will help protect against dirt from running around and playing, whether inside or outside the house, resulting in less dust, mud, or dirt staining the pet's fur. In addition, if dogs and cats wear a fur-shedding shirt, it will also

reduce the amount of hair that falls out and sticks to our clothes, sofas, or other areas inside our homes.

In addition, if the dog has a wound, wearing breathable, non-moist and non-tight clothing will reduce the chances of them licking their own wounds, preventing infection and keeping our four-legged friends healthy.

From love to the concept of Pet Humanization because dogs and cats are family members.

CLAWSET BKK has seen the importance of wearing dog and cat clothes and has adhered to the concept of Pet Humanization because dogs and cats are family members who should be taken care of, given love, and must look stylish on every occasion. Therefore, we have gathered together pet clothes and dog and cat fashion in various styles for sale so that our four-legged friends and owners can add love through dressing up and be fully happy in every moment of their lives.

...So what is Pet Humanization?...

“Pet Humanization is the ultimate in being a dog or cat slave.” That’s because the concept of Pet Humanization is to care for and raise our pets as if they were our children or family members, making them happy from receiving full love and bonding.

And with this Pet Humanization concept, CLAWSET BKK is ready to be a part in giving love and creating happiness for dogs, cats and their owners. Therefore, there are designs of dog and cat clothes, pet couple shirts, dog clothes , cat clothes, hair loss prevention clothes, collars, leashes, harnesses and many more pet fashion products that are stylish and unique with premium quality materials for every family.

'Because dogs and cats are not just pets, but are family members.'

Choose the best and most suitable product for both you and your pet.

How To Choose Clothes for Dogs and Cats in the CLAWSET BKK Style

For any dog or cat owner who wants to dress up their cute pets or is looking for a dog clothing store near me but still don't know what kind of clothes to choose, how do you choose so that your dog or cat is as comfortable and safe as possible?

Today, CLAWSET B KK has gathered together methods for choosing dog and cat clothes for you.

Choose a costume that is appropriate for your pet's size, body type, or breed.

Focus on comfortable clothes that are not too tight or too loose.

Choose clothes made of soft and stretchy fabrics.

In summer, choose fabrics that are breathable, such as cotton or spandex.

In winter, you should choose thick animal clothing to help keep you warm.

Avoid clothing that contains allergenic materials, such as glitter.

Avoid clothing with buttons or decorations that can easily be bitten and come off.

It is recommended to choose clothes with Velcro or zippers instead of those with buttons.

Now, your four-legged friends and their owners can dress up beautifully, coolly, and stylishly in their own way by purchasing products from CLAWSET B KK!

CLAWSET BKK would like to share! Things you need to know for beginners who are learning to dress up their dogs and cats.

Before you all go searching for dog clothing stores near me on social media to find the best dog and cat fashion outfits to wear on your pets, if you are a parent or owner who wants to start dressing up your dog or cat, we have compiled the things you need to know to start dressing up your dog or cat!

Techniques for training dogs and cats to wear pet clothes

To train your dog or cat to wear clothes willingly and without stress, parents or owners can follow the advice from the table below.

Techniques for training dogs and cats to wear pet clothes

STEP 1 Train your dog or cat to get used to the smell by placing the clothes you want them to wear in the owner's used laundry basket.

STEP 2 Apply a small amount of wet food to the shirt and let your dog or cat sniff it to increase interest and trust them that these pet clothes are safe.

STEP 3 Place pet clothes on your lap and let your dog or cat lie down on your lap to make them feel more comfortable and familiar with the clothes.

STEP 4 Start putting on the dog or cat clothes , starting from the neck, then gradually putting on the arms and then the legs (if you fail, stop doing it and let your dog or cat get used to it so you can try again and succeed).

STEP 5 Always reward your dog or cat with treats, food, or a walk if they successfully dress up.

STEP 6 Put on your dog or cat clothes often so that your dog or cat will remember the feeling and will be willing to wear your pet clothes quickly in the future.

Important prohibitions for beginners who are training their dogs and cats to wear clothes

Things that parents or owners need to be careful about when training their dogs or cats to wear pet clothes are:

1. Wearing animal clothing is prohibited as a form of coercion.

Because if you force your dog or cat to wear clothes unwillingly, it will cause stress and distrust in us to put on clothes for them. Therefore, you should do it gradually and follow the advice above so that they can happily wear dog clothes and cat clothes.

2. During training, you must be calm. Do not shout or yell loudly.

In addition to forcing your dog or cat to wear clothes, another thing to watch out for that will cause stress is yelling, scolding, or yelling loudly at your dog or cat, which will cause more shock and eventually make them afraid of wearing clothes.

3. Do not force your dog or cat to wear tight and uncomfortable clothes.

For the last important prohibition that beginners who are training their dogs or cats to wear clothes should know, is that if we buy clothes that don't fit our dogs or cats, especially clothes that are too small, we must never force our dogs or cats to wear clothes that don't fit or are too tight. This will make them feel uncomfortable and dislike wearing pet clothes .

How to clean dog and cat clothes to be clean like new, safe and hairless

Another thing that beginners who are new to dressing their dogs and cats do is to clean their clothes to make them look new and safe for them. Because if the clothes of pets are not clean, germs may accumulate, causing them to feel uncomfortable from skin irritation, risking hair loss disease, and having excessive musty odors.

To clean your pet's clothes, you should follow these tips:

STEP 1: Start by removing the hair.

Removing dog or cat hair before washing is one way to prevent clogged washing machines. You can start by using a roller or using a dry sponge with the rough side to gently scrub your pet's clothes to loosen the hair.

STEP 2: Wash with appropriate detergent.

Once the fur is completely removed, wash the clothes with detergent. However, if you notice that your dog or cat has an allergic reaction, choose a gentle detergent or baby detergent instead.

STEP 3: Always dry thoroughly.

Before putting them on your dog or cat, you must dry the clothes completely to reduce the risk of bacteria and musty odors. If you need to wash your pet's clothes during the rainy season, you can choose to dry them completely to solve the problem of the clothes not drying.

Are you looking for a pet clothing store?

If you are looking for a dog or cat clothing store or pet clothing store and are looking for a dog clothing store near me, come and shop at CLAWSET BKK, a complete wardrobe for your four-legged friends.

That will definitely not disappoint dogs, cats and their owners.

Dog and cat clothes, pet clothes, pet couple clothes, hair loss protection clothes, collars, leashes, harnesses, pet clothes and pet fashion products at great prices with premium quality.
